## Where Does My Lexile Level Come From?

Students are tested for their reading level through our MAP assessment. The Lexile level is to give the student and parents an idea of where the student stands in reading capabilities, skills and comprehension. There's not a set "score" for each grade level, however, to give parents and school officials a guideline to best see where the student stands, a chart has been made. The Lexile score was not created to limit a student's reading opportunities but to encourage them to select materials which are challenging and interesting to them.

To find more information on Lexile Levels, please go to: <http://lexile.com/about-lexile/how-to-get-lexile-measures/reader-measure/>
