

# PowerSchool and Synergy ParentVUE Login

Electronic version of this document is available at <http://bit.ly/CUSDparentlogin>

There are two main web-based programs you will use to access student information..

PowerSchool	Synergy ParentVUE
<p>PowerSchool is a Learning Management System that contains information about class assignments, in-progress grades, and upcoming events. Parents are encouraged to check PowerSchool regularly to stay informed about student progress and current events. Please note: Parents have their own account, separate from student accounts, and should be logging in as a parent, and not using their child's account.</p>	<p>ParentVUE is a place to login to the district database that holds official records and information. This is where student attendance, schedules, progress reports, and <b>final report cards</b> are visible. These reports include academic and citizenship grades along with teacher comments.</p>

NOTE: **DO NOT attempt to Sign in with Google Account.** This is how **STUDENTS** login to PowerSchool; this method does NOT work for parents.

Once logged in, you will be at the Parent Portal. To the right of the "My Classes" heading, click on the downward arrow to select which child's classes you would like to view. Clicking on any class title will bring you to the selected class PowerSchool Page. Click around on the page to view assignments, student progress, and events. You are encouraged to have your child take you on a tour of each of their class pages so that you will know where to find information on each page.
