### Seventh and Eighth Grade Physical Education Hybrid PE Course for 2019-2020

Name (first and last): \_\_\_\_\_ Grade next year: \_\_\_\_\_

#### WHAT IS HYBRID PHYSICAL EDUCATION?

CMS offers an online-based, hybrid-learning physical education course for the 2019-2020 school year. The course ensures that state requirements for physical education are met while providing flexibility for students. The PE activities occur off site with bi-monthly check-ins with the teacher on-campus. Standards-based written work and assessments are also important components of the course and are submitted through PowerSchool.

#### COURSE DETAILS:

**Class time: Period 7:** Mon., Tues., Thurs., Fri., 2:03 pm -3:00 pm and Wed. 12:39 pm- 1:20 pm. Students will be dismissed from school at the end of period 6, except for bi-monthly, on-campus class time with their teacher. On these days, students will be required to remain on campus until the end of period 7, 3:00pm or 1:20 pm on Wednesday. These check-in days will be calendared at the beginning of the school year.

**Transportation:** CMS will not provide bus service at the end of period 6. Please note, the expectation is for parents to provide transportation or allow your student to walk or bike. Students are expected to leave campus at the end of their period 6.

#### QUALITIES AND SKILLS RECOMMENDED FOR SUCCESS

Good organization, excellent time management, self-starter, and good study skills are important predictors of success in Hybrid PE. The typical Hybrid PE student is spending 3-5 hours a week working on his/her assignments.

Students who are still developing these skills and have difficulty with work completion in other classes may find Hybrid PE too challenging.

#### ACCEPTANCE CRITERIA

1. Students must have a grade point average above a 2.0 on their June 2019 report card
2. A completed application must be submitted no later than June 3, 2019.

#### APPLICATION ESSAY QUESTIONS:

Please answer the following questions on a separate piece of paper. You may hand write or type your responses, and then attach it to this paper.

1. Why would Hybrid PE be a better option for you than a regular PE class?
2. What strengths/skills/motivation do you have that would help you succeed in an online course?
